

refer back for a public hearing, or something like that. I'm giving you the technical argument that as it stands now you've got a problem. It would destroy the whole bill. I'm saying, first of all, if you want to do this then you're talking about, get it out of this bill and do it somewhere else so you don't destroy this bill. Second of all, I'm saying the idea is bal of itself. It is unworkable because experience of other states, the limited number of population we have in Nebraska, Mr. Peters arguments that it will cost as much or more to enforce than we get out of it. So if you've got merits for it put it in a separate bill, come and lay those on us, and maybe we can go with it. I won't, but maybe some others will. At least get it out of this bill so you don't destroy the whole NORDA program and everything that Reutzel and some of these people have worked for. That is all I'm saying. I think we've discussed it pretty well. If you do return it, shouldn't take more than a couple minutes. We've decided the issue. If you don't return it, obviously that is the decision.
